

K-love serves an extremely important ministry to my family personally and also to hundreds if not thousands of families and persons within the listening area of Midland/Odessa. I am happy to support this ministry for myself and for those who cannot afford to financially support this radio station. It represents wholesome values and has a positive, encouraging message that would be sorely missed by many should this station be removed from the FM translators. This station brings the word of Jesus Christ to many believers throughout their busy days and may be the only time during their day that they can receive the message of Christ through this radio station and the wonderful music that is carried here. I strongly urge you NOT to remove this station from the FM translator, therefore, taking away my K-Love signal.
